Forward Looking Statements

This communication contains “forward-looking statements” within the meaning of the Private Securities Litigation Reform Act of 1995 regarding the financial condition, results of operations, business plans and future performance of First Citizens BancShares, Inc. (“BancShares”). Words such as “anticipates,” “believes,” “estimates,” “expects,” “predicts,” “forecasts,” “intends,” “plans,” “projects,” “targets,” “designed,” “could,” “may,” “should,” “will,” “potential,” “continue,” “aims” or other similar words and expressions are intended to identify these forward-looking statements. These forward-looking statements are based on BancShares’ current expectations and assumptions regarding BancShares’ business, the economy, and other future conditions.

Because forward-looking statements relate to future results and occurrences, they are subject to inherent risks, uncertainties, changes in circumstances and other risk factors that are difficult to predict. Many possible events or factors could affect BancShares’ future financial results and performance and could cause the actual results, performance or achievements of BancShares to differ materially from any anticipated results expressed or implied by such forward-looking statements. Such risks and uncertainties include, among others, general competitive, economic, political, geopolitical events (including the military conflict between Russia and Ukraine) and market conditions, the impacts of the global COVID-19 pandemic on BancShares’ business and customers, the financial success or changing conditions or strategies of BancShares’ customers or vendors, fluctuations in interest rates, actions of government regulators, including the recent and projected interest rate hikes by the Board of Governors of the Federal Reserve Board (the “Federal Reserve”), the potential impact of decisions by the Federal Reserve on BancShares’ capital plans, adverse developments with respect to U.S. or global economic conditions, including the significant turbulence in the capital or financial markets, the impact of the current inflationary environment, the impact of implementation and compliance with current or proposed laws, regulations and regulatory interpretations, the availability of capital and personnel, and the failure to realize the anticipated benefits of BancShares’ previous acquisition transaction(s), including the recently completed transaction with CIT Group Inc. (“CIT”), which acquisition risks include (1) disruption from the transaction, or recently completed mergers, with customer, supplier or employee relationships, (2) the possibility that the amount of the costs, fees, expenses and charges related to the transaction may be greater than anticipated, including as a result of unexpected or unknown factors, events or liabilities, (3) reputational risk and the reaction of the parties’ customers to the transaction, (4) the risk that the cost savings and any revenue synergies from the transaction may not be realized or take longer than anticipated to be realized, and (5) difficulties experienced in the integration of the businesses.

Except to the extent required by applicable laws or regulations, BancShares disclaims any obligation to update forward-looking statements or to publicly announce the results of any revisions to any of the forward-looking statements included herein to reflect future events or developments. Additional factors which could affect the forward-looking statements can be found in BancShares’ Annual Report on Form 10-K for the fiscal year ended December 31, 2021, and its other filings with the Securities and Exchange Commission (the “SEC”).

Non-GAAP Measures

Certain measures in this presentation are “Non-GAAP,” meaning they are not presented in accordance with generally accepted accounting principles in the U.S. and also are not codified in U.S. banking regulations currently applicable to BancShares. BancShares believes that Non-GAAP financial measures, when reviewed in conjunction with GAAP financial information, can provide transparency about or an alternative means of assessing its operating results and financial position to its investors, analysts and management. Refer to Section V of this presentation for a reconciliation of Non-GAAP measures to the most directly comparable GAAP measure.

BancShares completed the acquisition of CIT on January 3, 2022 (the “CIT Merger”). BancShares’ financial information presented for the periods ended March 31, 2022, June 30, 2022 and September 30, 2022 reflects the acquisition of CIT. Certain 2021 financial information referenced as “Combined” in this presentation reflects the combination of BancShares and CIT for historical periods prior to completion of the CIT Merger. Certain financial results referenced as “Adjusted” in this presentation exclude notable items. The Combined and Adjusted financial measures are Non-GAAP. Refer to Section V of this presentation for a reconciliation of the Combined (Non-GAAP) to BancShares (GAAP) measures.

Third Quarter 2022 Overview

Section I

Key Take-Aways - Third Quarter 2022

1

Will complete the repurchase of 1.5 million Class A common shares during 4Q22, closing out the Share Repurchase Plan approved in July 2022.

2

Continued focus on merger optimization efforts. Expect to **achieve \$250 million cost savings goal** and come in **slightly below merger cost estimate**.

3

Pre-provision net revenue momentum continued driven primarily by net interest income growth.

4

Net interest margin widened over the second quarter due to **higher interest rates and low actual beta through the end of 3Q22**.

5

Efficiency ratio improved closer to target set out at the merger date.

6

Provision build during the quarter due to deterioration in CECL macroeconomic forecasts and loan growth.

7

Credit quality remains in good shape with credit metrics remaining resilient despite heightened macroeconomic risks.

8

Loan growth was strong in the general and commercial bank.

9

Deposits declined but at a slower pace than in 2Q22.

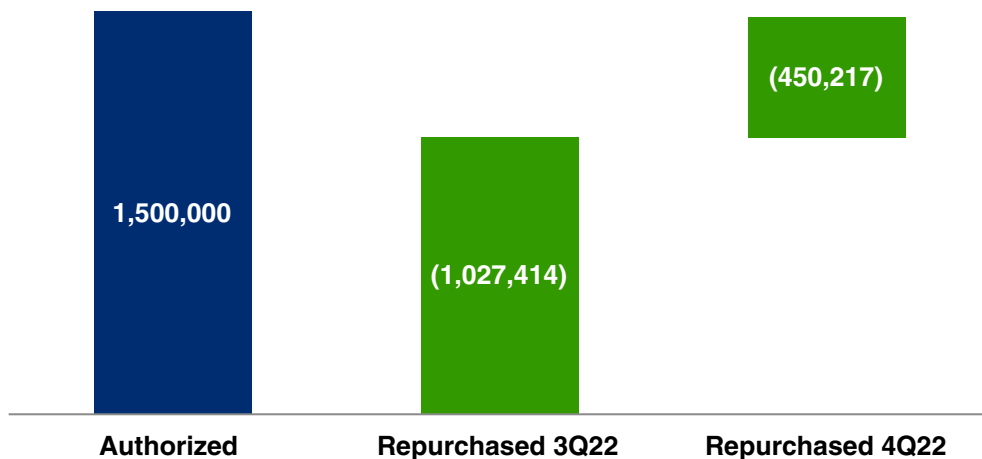

10

The 2Q22 and 3Q22 declines in deposits were replaced by increased borrowings to fund strong loan growth.

Share Repurchase Plan Update

Announced the plan to repurchase 1.5 million shares in July 2022.

We have completed 98.5% of the Repurchase Plan as of October 25, 2022.

Repurchase Summary (through 10/25/22)

Month	Shares	Average Price	Total Cost (in millions)
August 2022	487,284	\$ 820.11	\$ 399.6
September 2022	540,130	819.53	442.7
October 2022	450,217	842.32	379.3
Total	1,477,631	\$ 826.66	\$ 1,221.6

Highlights

- FCB has repurchased 9.85% of Class A common shares and 9.23% of total common shares as of October 25, 2022.
- CET1 ratio down 98 bps since the prior quarter, primarily due to the share repurchase and RWA growth, only partially offset by earnings (11.35% at 2Q22 to 10.37% at 3Q22).
- The estimated total cost of repurchases is \$1.2 billion, and the TBV earn back period is approximately 3 years.
- Repurchase estimated to be approximately 10% accretive to EPS in 2023.

Highlights

- **Note:** The commentary below relates to the “Adjusted” income statements.

3Q22 vs. 2Q22

- Net interest income increased by \$95 million primarily due to loan growth and higher yield on loans, partially offset by higher funding costs.
- Noninterest income increased by \$5 million. The increase was primarily due to higher capital markets fees, rental income on operating leases, net and other operating income, partially offset by lower service charges on deposit accounts.
- Noninterest expense increased by \$11 million primarily due to higher personnel costs and higher marketing expenses due to digital bank marketing efforts, partially offset by lower FDIC insurance expense and professional fees.
- Provision for credit losses increased by \$18 million primarily due to deterioration in CECL macroeconomic forecasts and loan growth, partially offset by improved credit quality and portfolio mix.

3Q22 vs. 3Q21

- Net interest income increased by \$191 million primarily due to an increase in interest income driven by a higher yield on earning assets.
- Noninterest income increased by \$47 million primarily due to higher rental income on operating leases, net, capital markets fees, wealth management income and other operating income, partially offset by lower service charges on deposits, merchant income and factoring commissions.
- Noninterest expense increased \$14 million due to marketing, equipment expense, third-party processing fees and other operating expenses, partially offset by lower FDIC insurance expense and professional fees.
- Provision for credit losses increased by \$130 million due to a net provision build in 2022 versus a net provision benefit in 2021.

Highlights

- **Note:** The commentary below relates to the “Adjusted” income statements.

YTD 22 vs. YTD 21

- Net interest income increased by \$322 million primarily due to higher loan and investment yields, loan growth and lower funding costs, partially offset by lower accretion income and SBA-PPP interest and fee income.
- Noninterest income increased by \$119 million primarily due to higher rental income on operating leases, net, increases in wealth management and card income and higher capital markets fees.
- Noninterest expense increased by \$55 million due primarily to higher personnel costs and other operating expenses, as well as higher direct bank marketing costs, partially offset by reductions in FDIC insurance expense and professional fees.
- Provision for credit loss increased \$347 million due to a net provision build in 2022 driven primarily by deterioration in CECL macroeconomic forecasts and loan growth, versus a net provision benefit in 2021.

Net interest income and margin (NIM)

(\$ in millions)

Highlights

3Q22 vs 2Q22

Net interest income increased by \$95 million due to a \$149 million increase in interest income partially offset by a \$54 million increase in interest expense. NIM expanded from 3.04% to 3.40%. The change in net interest income was primarily due to the following:

- \$130 million increase in interest income on loans due to a higher yield and loan growth,
- \$18 million increase in interest income on overnight investments due to a higher yield; partially offset by,
- \$36 million increase in interest expense on deposits due to higher rates paid, and
- \$18 million increase in borrowing costs due to additional FHLB advances and higher rates.

3Q22 vs 3Q21

Net interest income increased by \$191 million due to a \$184 million increase in interest income and a \$7 million decrease in interest expense. NIM expanded from 2.53% to 3.40%. The change in net interest income was primarily due to the following:

- \$123 million increase in interest income on loans due to a higher yield and loan growth, partially offset by lower purchase accounting accretion and SBA-PPP interest and fee income,
- \$36 million increase in interest income on investment securities due to a higher yield and portfolio growth,
- \$29 million decline in interest expense on borrowings due to lower yields, and
- \$25 million increase in interest income on overnight investments due to a higher yield, partially offset by a
- \$22 million increase in interest expense on deposits due to higher rates paid.

YTD September 2022 vs YTD September 2021

Net interest income increased by \$322 million due to a \$176 million increase in interest income and a \$146 million decrease in interest expense. NIM expanded from 2.56% to 3.06%. The change in net interest income was primarily due to the following:

- \$119 million decline in interest expense on borrowings due to a lower rate paid,
- \$106 million increase in interest income on investment securities due to higher yields and portfolio growth,
- \$27 million decline in interest expense on deposits due to lower balances and the impact of purchase accounting on deposit rates,
- \$38 million increase in interest income on overnight investments due to a higher yield, and
- \$32 million increase in interest income on loans due to an increase in loan yield, partially offset by lower balances and lower purchase accounting accretion and SBA-PPP interest and fee income.

Net interest income and margin rate sensitivity

3Q22 Interest Rate Sensitivity

Highlights

- BancShares continues to have an asset sensitive interest rate risk profile.
- The projected increase in net interest income over the next 12 months is 3.4% for an immediate 100 bps parallel shift (shock) in the yield curve and 1.5% for a gradual shift (ramp) of 100 bps.
- Asset sensitivity is largely driven by the composition of the balance sheet, primarily due to floating rate loans and cash, as well as a strong core deposit base with modest betas.
- We expect full cycle deposit beta to be approximately 25%.
- Approximately 45% of our loans are floating indexed primarily to 1-month LIBOR, 3-month LIBOR, Prime and SOFR.
- The duration of our investment portfolio is 4.5 years, and helps to mitigate earnings risk in a down rate environment.

Deposit Beta Performance and Estimates

	3Q22 - Actual	4Q22 - Estimated
Cumulative Fed Funds increase	300 bps	425 bps
Fed Funds target range (quarter end)	3.00 to 3.25%	4.25 to 4.50%
Quarterly deposit beta	11%	34%
Cumulative deposit beta	6%	14%

Highlights

- Expect 4Q22 quarterly deposit beta to accelerate to 34%, + 8% on a cumulative basis.
- We expect full cycle deposit beta to be approximately 25%.
- **Mid/higher beta categories:**
 - 30% + beta on Direct Bank money market, savings and time deposit accounts.
 - 10 to 30% beta on branch network money market accounts and time deposits.
- **Lower beta categories:**
 - 0 to 10% beta on total non-interest bearing deposits, branch network, checking with interest and savings accounts.

Noninterest income

(\$ in millions)

Highlights

3Q22 vs 2Q22

Core noninterest income increased \$5 million. Significant components of the change were:

- Fee income and other service charges increased \$5 million primarily due to higher capital markets fees.
- Rental income on operating leases, net increased \$3 million as top-line revenue growth matched the growth in maintenance expenses and depreciation expense was lower in 3Q22.
- Other noninterest income increased \$12 million spread among various line items;
- Partially offset by a \$7 million decrease in service charges on deposit accounts due to the changes to our OD/NSF fees that went live in July 2022 and a \$3 million decline in factoring commissions.

Non-core noninterest income increased \$1 million.

3Q22 vs 3Q21

Core noninterest income increased \$47 million. Significant components of the change were:

- Rental income on operating leases, net, increased \$30 million primarily due to higher gross revenue driven by increased utilization and higher lease rates.
- Fee income and other service charges increased \$7 million primarily due to higher capital markets fees and other noninterest income increased \$14 million spread among various line items;
- Partially offset by a \$5 million decrease in service charges on deposit accounts and a \$4 million decline in factoring commissions.

Non-core noninterest income decreased \$49 million.

Significant components of the change were:

- \$19 million decline in gain on sale of leasing equipment.
- \$19 million decline in gain on sale of investment securities and fair market value adjustments on marketable equity securities.

YTD September 2022 vs YTD September 2021

Core noninterest income increased \$119 million.

Significant components of the change were:

- Rental income on operating leases, net, increased \$82 million due to higher gross revenue driven by increased utilization and higher lease rates.
- Wealth management services increased \$11 million due to increased annuity sales and higher assets under management.
- Fee income and other service charges increased \$8 million primarily due to higher capital markets fees.
- Cardholder services income, net increased \$10 million due to higher volumes.

Non-core noninterest income increased \$122 million due primarily to the \$431 million preliminary bargain purchase gain as a result of the CIT acquisition in the first quarter of 2022, partially offset by declines in gain on sale of investment securities, loans and operating lease equipment.

Noninterest expense

(\$ in millions)

Highlights

3Q22 vs 2Q22

Core noninterest expense increased \$11 million. Significant components of the change were:

- Personnel costs increased \$10 million as a result of net staff additions, wage increases and higher temporary employee costs.
- Marketing costs increased \$6 million due to higher expenses in the Direct Bank;
- Partially offset by a \$4 million reduction in FDIC insurance premiums and a \$2 million decline in professional fees.

Non-core noninterest expense increased \$1 million.

Efficiency ratio improved from 57.55% to 53.32% as core net revenue grew by 10% and core noninterest expense declined by 2%.

3Q22 vs 3Q21

Core noninterest expense increased \$14 million. Significant components of the change were:

- Marketing costs increased \$6 million for the same reason as the linked quarter increase.
- Occupancy and equipment expense, professional fees and third-party processing fees increased \$4 million each and other operating expenses were up \$8 million spread among various line items;
- Partially offset by a \$7 million reduction in FDIC insurance premiums and a \$6 million decline in professional fees.

Non-core noninterest expense increased \$27 million driven primarily by a \$26 million increase in merger-related expenses.

Efficiency ratio improved from 66.58% to 53.32% due to 28% core net revenue growth versus 3% core noninterest expense growth.

YTD September 2022 vs YTD September 2021

Core noninterest expense increased \$55 million. Significant components of the change were:

- Personnel costs increased \$19 million as a result of merit increases and higher temporary employee costs, partially offset by net staff reductions.
- Third-party processing expenses increased \$11 million, marketing expenses increased \$10 million and other operating expenses increased \$22 million;
- Partially offset by a \$12 million reduction in FDIC insurance premiums.

Non-core noninterest expense increased \$156 million driven primarily by a \$177 million increase in merger-related expenses; partially offset by a \$17 million reduction in intangible asset amortization.

Efficiency ratio improved from 64.97% to 57.25% due to 17% core net revenue growth versus 3% core noninterest expense growth.

Loans and Leases HFI

(\$ in millions)

Highlights

3Q22 vs 2Q22

- Loans grew \$2.1 billion, or by 12.0% on an annualized basis.
- Growth was driven primarily by our branch network, Commercial Finance, Business Capital and Mortgage.
- The primary drivers of the growth by loan type were commercial & industrial, non-owner-occupied commercial mortgage and residential mortgage loans.

3Q22 vs 3Q21

- Loans grew \$3.8 billion, or by 5.8%. Loans excluding the impact of purchase accounting and SBA-PPP increased \$4.7 billion, or by 6.8%.
- Growth was due to the same factors above for the linked quarter.
- The primary drivers of the growth by loan type were commercial & industrial, residential mortgage and owner-occupied commercial mortgage loans.

(\$ in millions)

Highlights

3Q22 vs. 2Q22

- Total deposits decreased \$1.8 billion, or by 7.9% on an annualized basis.
- Interest-bearing deposits decreased \$1.8 billion, primarily due to a \$2.9 billion decline in money market deposits, partially offset by a \$1.4 billion increase in savings accounts.
- The reduction in total interest-bearing deposits was primarily concentrated in acquired branches and Commercial Banking, partially offset by growth in the Direct Bank.

3Q22 vs. 3Q21

- Total deposits decreased \$2.8 billion, or by 3.1%.
- Interest-bearing deposits decreased \$4.4 billion, primarily driven by decreases of \$3.9 billion and \$2.1 billion in money market deposits and time deposits, respectively; partially offset by a \$966 million increase in checking with interest accounts and a \$566 million increase in savings accounts.
- The reduction in interest-bearing deposits was primarily concentrated in acquired higher cost Direct Bank accounts and acquired branches, partially offset by growth in the legacy branch network and Community Association Banking.
- Noninterest-bearing deposits increased by \$1.7 billion.

2Q22 to 3Q22

ACL / Net charge-offs

Highlights

3Q22 vs 2Q22

- Total ACL increased \$32 million compared to the linked quarter.
- We saw declines in the ACL from continued strong credit quality and portfolio mix due to loans moving out of portfolios with higher reserve rates.
- Declines in the ACL were offset by portfolio growth and deterioration in the CECL macroeconomic forecasts (GDP, CRE Index, HPI, and interest rates).
- The ACL provided 12.9 times coverage of annualized quarterly net charge-offs.

Balance Sheet		
Loans and leases	\$ 28,023	\$ 27,220
Deposits	3,682	4,449
Factoring volume	6,801	6,387

- The Commercial Banking segment had strong loan growth during the third quarter as balances increased \$803 million or 11.7% annualized. This increase was driven primarily by robust growth in Commercial Finance (7.1% annualized) and Business Capital (18.3% annualized).
- Within Commercial Finance, growth was concentrated in our Industry Verticals including Tech, Media & Telecom and Healthcare. The forward-looking pipelines continue to be strong in the Industry Verticals.
- Business Capital had another strong quarter of growth, driven by \$819 million in new originations in the quarter, which was the largest originations quarter on record. Outlook remains strong with submittals, approvals, approval rates and bookings all continuing to show improvement against prior year.
- Commercial Services (factoring) had a strong quarter with factoring volume totaling \$6.8 billion, which was up over the prior quarter as a result of seasonal increases.
- Credit quality continues to be strong, as overall net charge-offs declined to 25 bps in the Commercial Banking Segment on the quarter, down from 37 bps in the prior quarter.

General Banking Segment

Wealth management assets under management (\$B)	\$ 31.8	\$ 31.7
Card volume	4,001	3,988
Merchant volume	1,728	1,757

Highlights

- The General Banking segment had strong loan growth over the prior quarter (12.2% annualized) driven primarily by business & commercial loan growth in the branch network and growth in Mortgage portfolio from slowing prepay speeds on balance sheet production.
- Our continued focus on relationship banking in our branch network contributed to \$223 million of noninterest bearing deposit growth in the General Banking segment during the third quarter (3.7% annualized).
- While interest bearing deposits declined this quarter, the pace of this decline improved as interest bearing deposits in the General Banking segment declined \$1.0 billion this quarter compared to \$2.9 billion in the second quarter. This reduction was primarily concentrated in acquired branches, partially offset by growth in the Direct Bank.
- Credit quality remains strong, with no apparent stresses on the portfolio.
- We continue to place an emphasis on strengthening digital capabilities and refining our branch network to ensure sales strategies align with client preferences regarding channel selection and declines in transactional activity.

Rail Segment

Other Key Metrics		
Railcars and locomotives	118,515	119,546
Utilization	96.2 %	96.2 %
Average age of cars in years	14	14
Renewal rate to previous rate	105 %	114 %

Highlights

- Fleet utilization remained flat at 96.2% in 3Q22 compared to the linked quarter but up 5.0% from the prior year quarter. Utilization remains at the highest level since 2Q19.
- In 3Q22, the renewal re-pricing rate was 105% of the prior rate driven by broad-based strength across the freight car markets.
- Net revenue on operating leases increased by \$3 million due to higher rental income and lower depreciation, partially offset by higher maintenance expense.
- Short-term outlook continues to be positive but mixed across commodity markets with freight cars continuing to outperform tanks. The expiration profiles of leases (approximately 25-30% expiring per year) helps mitigate recessionary headwinds.
- Rail portfolio is driven by the industrial sector business cycle and financial performance generally lags the economic cycle.

Note – balances above include the impact of the merger with CIT as well as other acquisitions prior to December 31, 2021. The summary only includes select information and is not intended to represent all purchase accounting adjustments. While BancShares believes that the information provides a reasonable basis for estimating fair value, BancShares expects to finalize its analysis of the acquired assets and assumed liabilities within one year of the merger date.

(1) Preliminary purchase accounting marks on loans and leases is comprised of credit, interest and liquidity components, and are generally recognized using the level-yield or straight-line method over the remaining life of the receivable or in full in the event of prepayment.

(2) Preliminary purchase accounting marks on deposits and borrowings represent interest rate marks and are recognized using the level-yield method over the remaining term of the liability.

(3) On February 24, 2022, approximately \$3.0 billion in legacy CIT debt was redeemed.
